Mr. Randall said he stood here and spoke in his own representative relations. He recognized the fact that there could not be free trade between nations.

WASHINGTON, Feb. 5.—A public scandal of formidable dimensions has cropped out and made a congressional investigation necessary. What depths of corruption it may reveal in Republican administration remains to be seen, but it is bad enough on the surface. The facts that have come out are these: A treaty between Mexico and the United States to reopen the notorious Weil and La Abra claims is now before the Senate. pears these claims were trumped up and supported by the most shameless fraud ferable to either. His object was to so regulate the revenues they would give incidental protection to the people of his State and nothing more.
